MESSAGE BY TRUSTEES

Late Shri
Becharbhai Laxmanbhai Malaviya,
Founder Trustee

Shri Vallabhchai B. Malaviya,
Managing Trustee

Shri Vinodkumar S. Malaviya,
Vice President

Dear Prospective Candidate,

Siddhi Vinayak trust was founded on 27th January, 1997. The mission of the trust is to impart standardized vocational scientific education through basic and applied techniques to improve the quality and value of human irrespective of gender, caste, nationality and religion.

The Trust aspires for recognition as a leader, among various leading colleges, in the field of commerce, computer science, management & nursing.

S.V.E.T. commerce & BBA college was established in the year 1998. There was a dearth of SFIs in Jamnagar. There was a need to provide quality education to the students migrating outside Jamnagar to pursue higher studies. To fulfil and bridge the gap and to provide higher education in English medium, S.V.E.T. college was started under the dynamic leadership of Prof. V.B. Malaviya, the current managing Trustee of the trust and Prof. V. S. Malaviya, the vice president of trust. The college secured its affiliation from Saurashtra University, Rajkot in June 1998. under Reg. no. E-1417.

The trust has diversified and has started various courses like B.Com., BBA, BCA and PGDCA. Considering the growing needs of nurses in India and abroad, the trust started a nursing school, which is affiliated to the GNC and INC. The School has started Diploma in General Nursing and Midwifery (GNM) which is 3 1/2 year course as well as Auxiliary Nursing and Midwifery (ANM) which in 2 years course. The Trust has also started Prime Science School that provides Education for Higher Secondary Science Stream.

The aim of trustees in education
is the knowledge not of fact, but of values
- Dean William R. Inge

S.V.E.T. College, a unique quality oriented and visionary institution, is running a galaxy of modern courses to meet the present demand of competitive global education system.

S.V.E.T. College has already taken a series of steps towards ensuring consistent state of art knowledge and teaching techniques according to the ever dynamically changing demands. The commerce faculty was started in 1998-99 and since then the college gained reputation of being one of the best in the area of academic excellence and sports. Students and parents are extremely satisfied which can be seen with admission increasing every year.

Realizing its responsibilities and duties, S.V.E.T. is committed to preserve our cultural past and to take the city and state on the path of progress by ensuring quality oriented and research based modern education in all fields and areas of knowledge and learning to meeting the present demands of the global context.

We are confident that our staff and students would be able to achieve its ambitious goals. We help nurture our students in this respect so that they also become responsible citizens of the nation with moral values for a better tomorrow of our country. In this respect, our students are better faced to meet all the challenges of our present day.

The object of education is to prepare the young to educate themselves throughout their lives.

THE DESK OF DIRECTOR

Society is now placing more importance on higher education than ever before. Many people value higher education for monetary reasons. They believe that a higher education will allow them to find more lucrative careers that have high salaries and bountiful opportunities for raises and bonuses. These monetary benefits may be able to increase a person's living condition because he or she will be able to afford housing and health costs. Despite these monetary reasons, there are other reasons why higher education is important.

LEARNING HOW TO SOLVE PROBLEMS

During your higher education, you will be faced with a variety of problems. These problems will occur inside as well as outside the classroom. In the classroom, your professor may randomly call on you to explain a theory or a principle. You may have to solve problems with equations for your homework or during lectures depending on your major. Midterms and finals also demand you to be able to solve a variety of problems including problems that aren't on the test like how to manage your study time. As you face these problems, you will need to learn how to solve them on your own.

When solving problems during your time in the college, you can learn how to approach them in different ways and be open to alternate solutions. You're also able to develop your critical thinking skills. By learning how to solve problems, you may be able to solve problems in your workplace or in your home much easier later on.

LEARNING HOW TO DEAL WITH OTHER PEOPLE

While you're attending college, you may meet a variety of people from different social backgrounds, which is what you will probably face in your workplace. You will be dealing with professors as well as other students. When you're dealing with your professor, you can practice how you would approach a person in an authoritative position in a working environment. When making a request, would you ask in person or through an e-mail? When you feel like you're being treated unfairly, would you be confrontational or try your best to be polite?

Other than professors, you will also be dealing with other students. Learning how to collaborate with other students especially during group projects may help you learn how to interact better in a group, which may benefit your career later on. Collaboration is often an essential aspect of any type of work environment.

A FINAL THOUGHT ON HIGHER EDUCATION

Higher education skills will help you find a lucrative career while teaching you how to deal with a variety of other real-life situations. The ability to solve problems and the ability to communicate with other people are even important in personal relationships. Higher education is more than a stepping stone to a career. It's about learning how to develop a better you.

Man needs difficulties because,
they are necessary to enjoy success

S.V.E.T. VALUES

Learning

Learning is a life-long process rather than a graduation destination. We model continual learning and active exploration by uniting theory and practice and connecting the new with the familiar.

Discipleship

Life is best experienced by serving God, applying a biblical world-view and sharing god's love with others. We commit time and energy to developing personal relationships with God that are genuine, creative and international.

Service

Service is our privilege. We foster a culture of volunteerism, gladly reaching out to our local and global communities because we enjoy sharing and honor the example of servant leadership set for us by god.

Mentoring

Mentoring provides support for development of the whole person. We inspire each other to achieve, believe and make wise.

Diversity

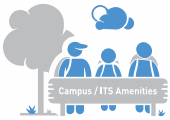

Diversity enriches campus life. We create cordiality of discourse, encourage respect for differences, promote inclusiveness, and welcome diversity among employees, students and leaders.

Community

We best learn and develop in the context of a diverse global community. We seek opportunities to strengthen our network of alumni, employees, families, and the society while welcoming new collaborative connections.

Stewardship

S.V.E.T. College has been entrusted by God with stewardship of His resources. We respect our students and care for our employees while maximizing our financial and physical capital in service of our mission

LIBRARY & STUDY ROOM

The College Library is a magnificent and a very popular place for students to work. It is housed on the ground floor of the college premises. The Library has been an important part of College life since the foundation and it continues to support the academic study of College members today. The modern collection is superbly stocked and it is kept up to date with regular purchases. We aim to support undergraduate-level study in all the principal subjects studied by College undergraduates. The Library houses reference books, text books, periodicals, journals for the betterment of the students. Adjoining the library is the reading room which provides a good ambience for students to concentrate on learning and self development. The Library serves as a beautiful and peaceful backdrop to inspire your studies.

COMPUTER LABS

The computer lab, located on the second floor of College Library, offers a variety of adjacent spaces and services to support teaching & learning needs related to computing and other services. As part of the program, general access computing is available with hardware and software licensed for students, faculty and staff use. Advanced multimedia support, scanners, are also available.

CONFERENCE HALL

The Conference Hall is a small and friendly hall at the college located at the top floor of the premises. White boards and flip charts are provided in the hall. Data projectors and screens are available. A Power Point enabled laptop. Internet access is also provided. The hall has a seating capacity of 120 students. Guest lecture series from eminent speakers as well as college activity programs are conducted at the conference hall.

MENTORING

The college also focuses on mentoring its students. Mentoring focuses and motivates students toward achieving learning goals. Youth who perceive high-quality relationships with their mentors experience the best results. Discussing college with mentors, especially those who have attended themselves, can generate interest in going to college among students whose parents have not gone to college. Mentors provide students with important information about college preparatory courses, financial aid and the college admissions process. Mentoring increases grade promotion and decreases unexcused absences, tardiness, and bullying or fighting in school, while community-based mentoring improves relationships with parents and decreases skipping school.

CAREER GUIDANCE & COUNSELING

The goal of the Guidance and Counselling Service at the college is to support College students in their personal, educational and career development by providing an understanding and caring service for students. Students are actively encouraged and above all are most welcome to use the Guidance and Counselling Services throughout the academic year. The teachers at the College act as Guidance Counsellors.

Services include

- ✓ Educational guidance, career and vocational counselling, academic/learning skills development, job seeking skills and personal counselling and support.
- ✓ The Service has a designated information area in the Information Resource Centre where students can access information for themselves.
- ✓ Up-to-date information is posted on the notice boards of the college
- ✓ Regular updates and reminders for students are also posted on the college student web site
- ✓ Career and educational talks/seminars/presentations are also organised throughout the year at group and/or class level

The main aim of the Service is to provide support and information for students of all ages and nationalities. So whether you have just completed your leaving certificate, are looking for a career change, returning to education as a mature student or visiting from overseas we hope to be able to assist you in your personal, educational and/or career goals.

ANTI RAGGING CELL

Ragging in India is a damaging form of interaction of the seniors in college or school with the juniors, newcomers or first years. It involves insults (simple or suggestive sexual, sarcastic and even physical), running errands for seniors, and many other complex activities. It has become increasingly unpopular due to several complaints of serious injury to the victims and strict laws regarding ragging. Ragging is now defined as an act that violates or is perceived to violate an individual student's dignity.

Following Supreme Court orders a National Anti-Ragging Helpline was launched by the Indian Government. Students being ragged send emails at helpline@antiragging.in to register their complaint, which can be registered without disclosing the name(s) of the victim(s). The college has also set up an anti ragging cell which invites complaints in this respect in context with the supreme court orders, UGC and university circulars.

JOB PLACEMENT SERVICES

Placements are benchmark to the performance of any management institute and it depicts the success and the growth of the institutions. The Objective of the placement cell is to facilitate the process of placement & ensure that each eligible student gets an opportunity in the industries. The cell aims to achieve 100% placement assistance to our students. The cell consists of student placement representatives and the placement coordinator from each department. We work on placing our students with core companies of the respective discipline of education. The students are placed according to their interest and skill that are set by the organizations where they can work and also increase their creativity & innovation in the development of technology as well as the organization. To achieve its goal, the Training & Placement Cell works towards recognizing the core competencies of students.

It works through a close knot organization and has a structure which conveys information to the students at the fastest possible rate. A common placement brochure for all branches is published. The Training & Placement Cell firmly believes in 'Industry-Institute Interaction'. In order to accomplish 'Industry-Institute Interaction' it organizes technical talks and national seminars to provide a platform for the budding engineers to interact with professionals from various industries. It encourages visits to the industries by the college students. It arranges for industrial problems to be worked on by students as part of their projects. It also takes suggestions from members of industry regarding designing/changing of curriculum.

The college is in the process of signing MOUs with many industrial organizations and industrial chambers. Technical paper presentation contests are held in collaboration with industries to discuss new developments and trends India's best corporate are where our Alumni are presently working. Other than this, we are hopeful of further improving our placement opportunities, activities and avenues in the near future while working in association with our powerful Alumni. The placement cell handles all the activities related to student's placement. A systematic structured training for enhancing the students quality in the area of aptitude, interview skills, group discussion and soft skills training are conducted at regular intervals at the college. The college also has a placement officer who is responsible for the following activities:

- ✓ To look after the training & placement activities of students.
- ✓ To have a close liaison with the industry for the placement of students.
- ✓ To organized lectures from professionals in the industry.
- ✓ To collect feedback from the companies coming for placements.
- ✓ Arrange for training programmes for soft skills and interview facing skills for students.

SPORTS ACTIVITIES

The sports recreational activities offers a wide variety of programs for students that promote wellness and enhance life long skills. The college provides intramural, extramural and community based sporting opportunities. The students are motivated to participate in Inter class and university level sports events from time to time. Academic learning and sports education are the complements of each other. They resemble the two sides of the same coin. If the sports education is carried out accompany with the academic curriculum, the over-all personality of the student are increased to greater extent. They get the qualities of the leadership, sharing, term spirit and tolerance from the sports. The power of reasoning, mental development, vocational specialization comes from the academics to the students. Therefore sports education along with the academics result in the mental, moral and physical development of the students.

Now-a-days the system of education makes the students to feel more stress on their mental development of groups of graduates and professional with weak body and poor physique. The curriculum should include the sports, games and physical health education for all-round development of the students. In schools, sufficient amount of time should be devoted for sports and physical training. Today's system of education has sports education as a compulsory subject. But the important thing is that the subject has yet to get the seriousness and the importance in practice. Mental and moral development is not enough for the youth generation. The require physical development. Sports education should be introduced in the schools and colleges with the sincerity. Sports education implies the statement a sound mind resides only in a sound body. A healthy and strong body is not possible without these sports and physical activities. All the physical and mental enjoyments depend on the strong body. Hence the development of the body is essential in life.

All the achievements and the graduate degree are waste without a good structure and healthy personality. A healthy and strong body alone can face the various struggles of the life successfully. A part from promoting health and strength, sports education teaches the students many good qualities of the held and heart.
